## Professional Summary

Cybersecurity and networking professional with strong technical expertise in information security, risk mitigation, and network operations. Experienced in implementing defensive security measures, analyzing threats, and maintaining system integrity. Completed professional training with Huawei Technologies, developing practical skills across cybersecurity, cloud computing, and networking domains.

## Core Competencies

- Cybersecurity Operations & Defensive Strategies
- Network Configuration & Infrastructure Management
- Threat Detection & Incident Response
- Cloud Security & Virtualization Fundamentals
- Windows & Linux System Hardening
- Risk Assessment & Mitigation
- Technical Documentation & Reporting

## Professional Experience

### Cybersecurity & Networking Trainee – Huawei Technologies

Participated in an intensive 2-month technical program focused on cybersecurity, networking, cloud computing, and artificial intelligence. Gained hands-on experience in network configuration, vulnerability analysis, and applying defensive security measures in simulated enterprise environments. Collaborated in exercises involving system protection, network troubleshooting, and secure data handling.

- Implemented secure network configurations and participated in real-world cybersecurity simulations.
- Practiced monitoring system performance, identifying potential threats, and applying security controls.
- Gained experience in both on-premise and cloud-based network environments.

## Certifications

- Cybersecurity Certificate – Huawei Technologies
- Networking Certificate – Huawei Technologies

## Technical Skills

- Network Configuration & Management (Cisco, LAN/WAN, VLANs)
- Firewall Policies & Endpoint Security Concepts
- Wireshark, Packet Capture, and Traffic Analysis
- Cloud Computing & Virtualization (Huawei Cloud Basics)
- Linux & Windows System Security
- Basic Scripting (Python for automation tasks)

## Programming Languages

- Python
- C
- Java

## Professional Objective

Seeking to contribute in cybersecurity and network defense roles where I can leverage my technical expertise, practical Huawei training experience, and commitment to system security and operational excellence to protect organizational infrastructure.
