## CAREER OBJECTIVE

Software Engineer specializing in **full-stack development** with hands-on experience in **React, Angular, SQL Server, and system analysis tools**. Skilled in building scalable applications, optimizing system performance, and improving user experience. Seeking to contribute to innovative projects in a dynamic software development environment.

## EDUCATION

**Bachelor of science, Software Engineering** 08/2020 – 10/2024  
*University Of Jeddah*  
Jeddah, Saudi Arabia

- Google Developer Students Club
- AI Club

## LICENSES

**Saudi Council of Engineers – Professional Engineering License**  
Membership No.: 1180672

## PROFESSIONAL EXPERIENCE

**Full-stack Web Developer** 05/2025 – 11/2025  
*Business Schema Trading (BST) – Tamheer Program*  
Jeddah, Saudi Arabia

- Developed and maintained **3 healthcare and administrative systems** using **Angular, C#, and SQL Server**.
- Reduced system response time by **20%** through query optimization.
- Collaborated with cross-functional teams to deliver scalable solutions.

**Web Developer Trainee** 04/2025 – 11/2025  
*Ghelaf Almehan – Internship*  
Remote

- Built **interactive UI components** using **React** and JavaScript.
- Corrected interactive issues between frontend and backend, improving integration accuracy by 10%.
- Practiced agile teamwork in a remote development environment.

**Software Engineer Trainee** 06/2024 – 08/2024  
*Jeddah Municipality*  
Jeddah, Saudi Arabia

- **Documented 4 municipal systems**, providing structured analysis to improve usability and maintainability.
- **Redesigned and rewrote code for 5 user interfaces (UIs)**, enhancing accessibility and improving overall user satisfaction.
- Contributed to the development of an API management system, streamlining data integration.
- Conducted usability testing and collaborated with teams to resolve inefficiencies.

## COURSES /WORKSHOPS

**End-to-End MySQL: Schema to Subqueries** 🌐 08/2025  
*Great Learning*

**Learning Jira Software** 🌐 08/2025  
*LinkedIn Learning*

**Programming with JavaScript** 🌐 04/2024  
*Meta*

**Documentation of work procedures** 🌐 05/2023  
*Saudi GCDC*

## PROJECTS

**Senior Project -922 Platform (NLP & Deep Learning)**  
*Web developer, Systems Analyst*

- Designed and implemented an **NLP model** for emergency report redirection using **Python**.
- Achieved **94% accuracy** in classification.
- Developed the backend using **Flask** to deploy APIs and integrate the model with the web platform.
- Built and deployed a dataset of **3,000+ records** for model training.

## SKILLS

- **Programming Languages:** Python, Java, JavaScript
- **Databases:** MySQL, SQLite, Microsoft SQL Server, SSMS
- **Web Development:** HTML, CSS, Node.js, Flask, C#, ASP.Net 🌐, Angular, React
- **System Analysis Tools:** UML, ERD, Flowcharts
- **UI/UX Tools:** Figma, Prototyping, Accessibility Testing
- **Project/Testing Tools:** Jira, Postman
- **Version Control:** Git, Notion, SourceTree
- **Office & BI Tools:** Excel, PowerPoint, Word, Power BI
- **Soft Skills:** Time Management, Problem-Solving, Leadership, Communication

## LANGUAGES

**Arabic** Native      **English** STEP:75
