## EXPERIENCE

### Projects Manager

#### WiConnect

01/2021 - Present Dammam

- I am responsible for managing projects exceeding 40 million SR/PO, while effectively communicating with all project stakeholders. I manage and lead over 65 teams across multiple regions, ensuring resources and materials are available to achieve project objectives. My role includes risk assessment, prioritizing tasks, monitoring performance, and closely collaborating with cross-functional teams to meet deadlines. I oversee project execution to ensure customer satisfaction, validate project reports, and provide weekly updates to senior management. In addition to project delivery, I work closely with clients to understand their requirements, provide solutions, and build strong relationships that keep customers satisfied and help the business grow. I have worked with key clients such as Aramco, leading telecom providers, major banks, and various government entities.

### Field Engineer Team Lead

#### WiConnect

06/2016 - 12/2020 Dammam

- My role involved Meeting clients to understand their requirements, Overseeing installation, testing, commissioning and Providing technical support and troubleshooting to resolve any issues efficiently. I ensured strict compliance with organizational rules and regulations . Maintaining confidentiality at all times.
