

Profiles

 [May Alsubaie](#)

Summary

Cybersecurity student with a strong foundation in network security, digital forensics, and incident response. Skilled in identifying threats, assessing risks, and applying security practices to safeguard systems and data. Quick to learn new technologies and eager to grow within professional cybersecurity environments.

Education

King Saud University

Aug 2022 - Present

Bachelor’s Degree in Applied Computing - Cybersecurity Track with First Class Honors

GPA: 4.9 / 5

Projects

Dynamic Password Authentication using Cellular Automata

Graduation project developing a dynamic authentication mechanism using cellular automata to enhance system security.

Smart Glasses

Developed Arduino-based glasses with ultrasonic sensors for obstacle detection and real-time auditory feedback.

Skills

Network Security

Incident Response & IoC Analysis

Digital Forensics (Autopsy, Recuva)

SIEM (Splunk) & IDS (Snort)

Packet Analysis (Wireshark)

Operating Systems: Windows & Linux

Soft Skills

Analytical & Critical Thinking , Problem-Solving , Attention to Detail , Adaptability & Quick Learning , Collaboration & Teamwork , Effective Communication

Certifications

Security+ Course

Nov 2025

Tamkeen

Certified in Cybersecurity (CC)

Oct 2025

ISC2

Virtual Work Experience in Cybersecurity Incident Response Analysis

Oct 2025

STC / Misk Skills

Cybercrime and Network Forensics Program

Aug 2025

Tuwaiq Academy

Membership

Member - Cybersecurity Specialist

Aug 2025 - Aug 2026

Governance and Digital Data Development Organization | GOVI
